USB & FireWire Hub

The art of connectivity...

by ora-ito[®]

Unique Design

Form and function combine beautifully with the modern design and full-featured connectivity of the LaCie Hub. Truly one-of-a-kind, it's the ideal Hi-Speed USB 2.0 & FireWire 400 combination hub for meeting all of your computing needs on your PC or Mac.

Connect It All

Bundled with 8 flexible, twistable cables (5 USB 2.0 & 3 FireWire 400), a fun USB fan, a convenient USB light, a USB extension cable and a FireWire 400 extension cable, the LaCie Hub comes fully equipped for making all of your connections. Every cable you might need is already included.

2-in-1 Combo Hub

This exceptional combination hub ensures that your computer is equipped with the technology you need without wasting your money or desk space on two separate hubs. It adds 4 USB 2.0 ports and 2 FireWire 400 ports to your computer system so you can access up to 6 external devices at a time. The Hub is also ideal for charging your iPod, camera, cell phone and other devices that charge from a USB port.

High Fashion Look

The Hub was designed exclusively for LaCie by Ora-Itō—the internationally acclaimed designer of the Brick as well as other amazing products. Made of strong polycarbonate, its round bulb-like shape, glossy white finish, and flexible cables give it a distinctive look. Each port is linked to a colorful LED that illuminates through the casing when a device is plugged in.

- Provides 4 USB 2.0 ports & 2 FireWire 400 ports
- Connect to 6 or more devices at once
- Convenient: plug & play and hot-swappable
